

2008–2012 Draft Statewide Transportation Improvement Program

This is your opportunity to comment on Montana's Transportation Projects

The Montana Department of Transportation has released a draft of the 2008–2012 Statewide Transportation Improvement Program (STIP). MDT wants your comments and ideas on these projects.

The STIP is a list of most, but not all, major transportation projects planned for Montana for the next five federal fiscal years. It includes aeronautic, railway, highway, public transportation, and federal lands highway projects.

The primary goal of the draft STIP is to solicit public comment on the proposed transportation program for Montana.

Each year, MDT receives many helpful comments and innovative ideas from the public on transportation-related issues. We carefully consider and respond to these comments and strive to incorporate them into the Department's decision-making processes.

The public comment period for the 2008–2012 draft STIP runs through July 1. Please send MDT your comments prior to that date so we can consider them for the final document.

The draft STIP booklet is available at your public library or at www.mdt.mt.gov/pubinvolve/active_projects.shtml.

You can request a hard copy by writing to the MDT Project Analysis Bureau or calling one of the numbers listed below.

We encourage the public to comment on this list now or anytime throughout the year as various transportation issues may arise.

To locate the major projects listed in the draft STIP (those costing over \$100,000), please refer to the map in the center of this issue of *Newsline*.
